Yes. We must process on two separate jobs and charge accordingly because the different types of materials require different process sequences. In order to certify to the processes completed, we must separate by alloy (process sequence). Each group below is priced at the combined minimum lot charge for the finishes requested on that order. Please accept the below as an official quote.

**Material Aluminum**

Elite will chemfilm (prep), mask, and apply Aeroglaze Z306 total qty 2 at lot charge \$490.00 + 9% environmental fee:

PN 1KBaffle qty 1

PN WindowHolder qty 1

**Material MuMetal**

Elite will blast (prep), mask, and apply Aeroglaze Z306 total qty 1 at lot charge \$520.00 + 9% environmental fee:

PN 4KMagSheild qty 1
